[REDACTED] Comment. Available information indicates that the bulk of the 1st Mech Div conducted exercises in the Nauen-Kremmen-Neuruppin area between 20 and 22 September. [REDACTED] The transfer to Netzeband on 20 September, which may have involved a unit representing the enemy force, was reported for the first time. Railroad records indicated that, between 22 and 24 September, nine return shipments, probably of track-laying vehicles, went from Netzeband to Doeberitz. [REDACTED] According to paragraphs 2 and 3, the wheeled vehicles moved to Doeberitz by road. Available information indicates that a total of 14 JS-3 tanks, 10 SP guns, 171 T-34 tanks, 33 x 122-mm field howitzers, 8 rocket launchers, at least 20 medium AT guns and 13 x 37-mm AA guns, 111 armored personnel carriers, 15 BA-64 armored scout cars and approximately 300 trucks participated in the exercise. [REDACTED] The number of field howitzers confirms, to a certain extent, the assumption that the mortar regiments were being reequipped. [REDACTED]
